

Class A Bear License

Once the drawing for bear permits is done, customers will be notified by mail if they have been awarded a Class A Bear permit. The awarded tag will be posted in their account by DNR, and they may then purchase their tag and license.

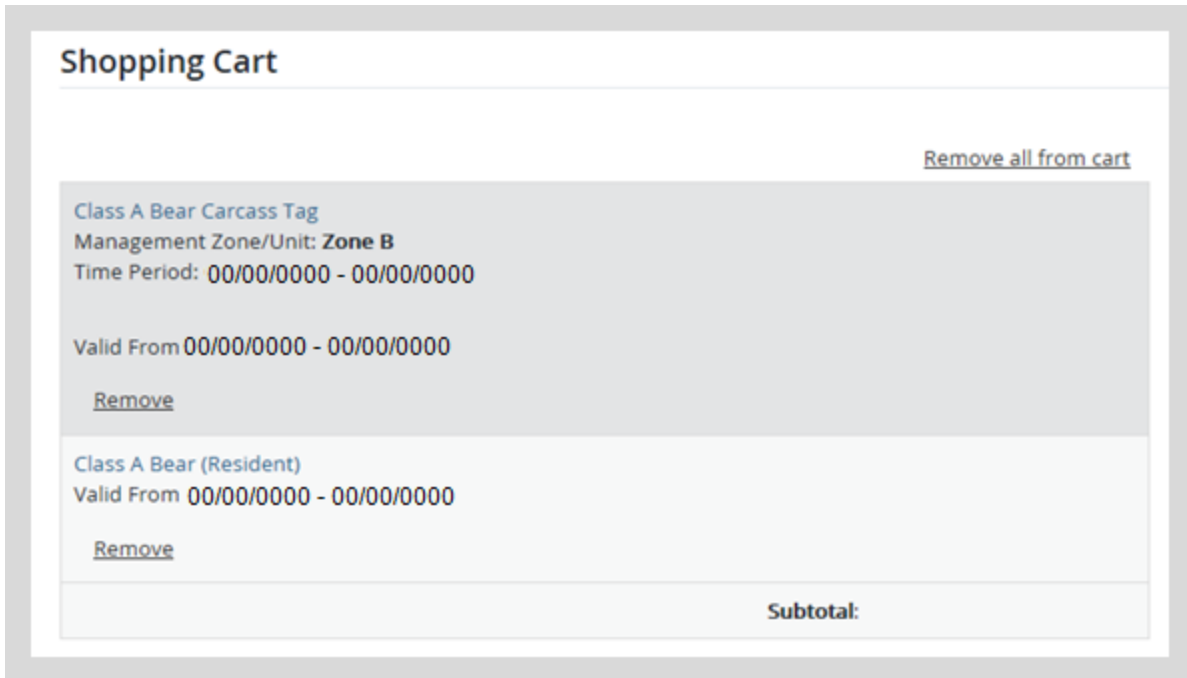

- **Customer Catalog.** Select the [Hunt/Trap tab](#) in the Customer Catalog. Select the Class A Bear Carcass Tag under the Products list. The price for the tag itself will show \$0 at this point, but they will be charged the correct price for the license in a later step.

- **Class A Bear Tag.** The [Class A Bear Carcass Tag](#) will be automatically selected for you under Select a Tag. The system will require you to select the Class A Bear License under the **Required** section. A customer cannot get their awarded tag without purchasing the license at the same time. Select and add to cart.

- **Shopping Cart.** The Shopping Cart will display both items required for bear hunting. Confirm the zone and tag information is correct with the customer before finalizing the purchase.

- **Printing.** Checkout, confirm payment, and have the customer sign. There will be two items on the printed document. One is the bear license, and the other is the bear carcass tag, with zone listed. Give all printed documents to the customer.

Class A Bear License:

This is the actual license document that the hunter will carry as proof of license approval. This document may be substituted by a DNR verified driver license or Go Wild conservation card.

Class A Bear Carcass Tag:

This is the tag that the hunter must carry for tagging their harvest. The tag must be validated immediately after harvest, but the tag need not be attached to the bear unless the hunter leaves the carcass.
