

Check for valid Hunter Education

When a student presents proof that they completed an online hunter education course, make sure to check the document for authenticity. Some courses issue a complete certification, while most will only provide something called a Field Day Voucher. **Although it may look like an official certified document, a Voucher is not valid proof of hunter safety.** It is only an invitation to a final exam/field day, which the customer must complete before they are hunter safety certified. Once that is completed, WDNR issues an official safety card to the customer.

Check the document for the word “certificate” or “voucher”. If the customer has a voucher, instruct them to read the document, which will explain what they still need to do. They can also call the DNR for more info at 1-888-936-7463.
