

# Hunter Education Certification

Any customer born after Jan 1, 1973 must complete a hunter safety course in order to purchase a hunting license in Wisconsin. When selling any hunting license on Go Wild, the system will ask for the customer's hunter safety certification number if one is not found on file in their customer record. One of two items must be completed before the license can be sold:

- If the customer **HAS** completed a certified hunter safety course in any state, they must provide the **certification number** and the **state they completed** it in. This information will allow the sale of this year's license only. The customer must verify the certification with DNR staff in order for this information to be added to their record permanently.
- If the customer **HAS NOT** yet completed a certified hunter safety course in any state, the customer may still purchase a **Mentored Only** license. *Please note: The Mentored Only version of any license includes specific restrictions that the hunter must comply with while hunting. Have the customer read the restrictions on screen before purchasing.*

The **Mentored Only** button should only be checked when the customer has never taken a hunter education course, or the customer is 10-11 years of age. Any person sold this license would be subject to the Mentored Only restrictions, regardless of their age.

### Small Game License (Resident)

Allows hunting of small game, bobcat (permit required), and unprotected species with a firearm, bow or crossbow.  
Not valid for hunting bear, deer, and wild turkey. NOTE: Residents who graduated from a Wisconsin Hunter Education course for the first time this year, their safety certificate serves as a small game license until March 31 of the year AFTER it was issued

Price: \$18.00

### Safety Ed Certification

Please enter Certification Number and State or choose any exemptions you qualify: *Required*

Safety Ed Certification Type:

Certification Number *Required*:

State *Required*:

Mentored Only

*NOTE: MENTORED ONLY will print on your license and the following restrictions apply to you if you are purchasing a license without hunter education certification and were born on or after 01-01-1973.*

- 1. If you are a minor, your mentor must be your parent or guardian or another adult authorized by your parent or guardian. Parental permission to hunt is required.*
- 2. Mentor must be 18 or older, possess a valid license to hunt, meet applicable hunter education requirements and can only take one person hunting at a time who is required to hunt with a mentor.*
- 3. You must remain within arms reach of your qualified mentor.*
- 4. Only one shared firearm or bow (or crossbow if eligible) is allowed between the mentor and the mentored hunter.*
