

2022 Spring turkey bonus harvest authorization availability

Customers may purchase bonus spring turkey permits for all zones/time periods that still have permits available once they go on sale in March. Permits may be purchased throughout the end of the turkey season for the time period selected.

- **Zone 1 on sale March 21** - Still has permits available in select time periods
- **Zone 2 on sale March 22** - **SOLD OUT**
- **Zone 3 on sale March 23** - Still has permits available in select time periods
- **Zone 4 on sale March 24** - Still has permits available in select time periods
- **Zone 5 on sale March 25** - **SOLD OUT**
- **Zone 6 on sale March 25** - **SOLD OUT**
- **Zone 7 on sale March 25** - **SOLD OUT**

Cost is \$10.00 for residents and \$15.00 for the nonresidents. Please note that at the time you purchase you will be required to purchase a spring turkey license and stamp. One per day per customer, until they are sold out or the season ends.

FREQUENTLY ASKED QUESTIONS

Who can purchase a bonus turkey harvest authorization?

Anybody can purchase a bonus harvest authorization regardless if they received an awarded permit in the drawing.

How many bonus permits can a customer purchase?

Customers may purchase one bonus permit per day. Permits are available until the requested unit is sold out.

Can a customer purchase a turkey harvest authorization for another person?

A customer may only purchase a harvest authorization for themselves, or for their own minor children (under 18). Adults must be present at the agent to purchase their own.

Why isn't the Bonus Turkey permit product available on the screen?

For the first week of sales, the bonus turkey permits go on sale at 10am each day. The products are not added to the product list until EXACTLY 10am. See the full schedule on the reverse side of this guide.

A customer wants a bonus harvest authorization for zone X, time period X, but it does not show up on the terminal screen.

There are three possible reasons why this would happen. 1) That particular unit and/or time zone has been sold out. 2) The customer already purchased a bonus turkey harvest authorization the same day. 3) It may not be the sale date for that zone (for example, during the first week, Zone 1 goes on sale on Monday, but will not be available again until Saturday, when all zones go on sale.

Why is a Turkey Zone/Time Period displayed as "Grayed out" on the list?

That Zone once had permits available at the beginning of the sale, but has since sold out.

A customer requested a permit for Zone 1, but all I see is Zone 2 available. Why?

For the first week of sales, each zone has a designated day for sales to occur Monday through Friday (see the full schedule on the reverse side). All other zones are not for sale on that day. NOTE: all zones with permits still remaining will go on sale again on Saturday.
