Q: Who can purchase a Spring Turkey leftover harvest authorization?

A: A customer may only purchase a harvest authorization for themselves or for their own minor children (under 18). Adults must be present at the agent to purchase their own. Customers may purchase a leftover regardless if they received one in the Spring Turkey drawing.

Q: Can a customer purchase a harvest authorization for another person?

A: A customer may only purchase a harvest authorization for themselves or for their own minor children (under 18). Adults must be present at the agent to purchase.

Q: How many harvest authorizations can a customer purchase?

A: They can purchase one **bonus** harvest authorization per unit per day until the requested unit is sold out.

Q: What if a customer wants to purchase other licenses along with their leftover turkey harvest authorization?

A: The leftover turkey harvest authorization will not show up on the license terminal until exactly 10:00 am during the first week of sales. After that first week they are on sale 24/7. The customer is encouraged to purchase all other licenses prior to 10:00 in order to minimize the wait time for other customers.

Q: A customer wants a harvest authorization for zone X, time period X, but it does not show up on the terminal screen.

A: There are three possible reasons why this would happen. 1) That particular unit and/or time zone has been sold out. 2) The customer already purchased a leftover the same day. 3) It may not be the sale date for that zone (for example, during the first week, Zone 1 goes on sale on Monday, but will not be available again until Saturday, when all zones go on sale).
