License exception for: YOUTH SUPERVISED TRAPPING

Youth under age 16 may trap without a license under the supervision of a licensed trapper, even if the youth has not completed trapper education. The mentored trapping license for youth under 16 is not offered because of this unique exception. Youth who are trapping under supervision may apply for purchase and use bobcat and fisher trapping permits as well as otter authorizations.

NOTE: Youths under age 16 who wish to trap alone must still complete trapper education, purchase a trapping license and tag their traps with metal tags as described on page 26 of the trapping regulations.

Youths trapping without a license will need to add the otter harvest authorizations in GoWild in order to pursue this species. These products are free and should appear as seen in the product catalog below.
